RDT: INTEGRITY AND SERVICE EXCELLENCE

To be successful in the oil and gas industry, well-operators must have confidence in both their equipment and their service providers.

Oilfield operators are measured by operational efficiencies; trust in service providers is imperative. With over 100 years of combined downhole tool manufacturing experience, Rotary Drilling Tools has the team that will provide high quality products and service excellence. For RDT, integrity is critical to earn our customers' trust. Poor quality products and lack of service cost oil and gas companies millions of dollars daily. RDT is American Petroleum Institute (API) certified, however, our standards go well beyond those of API. With on site testing and inspections, you can be assured only the best products are delivered in a timely manner.

RDT'S PROMISE TO YOU

“To exceed customer expectations, provide the highest quality products and serve with integrity”

Why choose Rotary Drilling Tools for your downhole needs?

1. Wide range of tubular products
2. API certified
3. Product quality exceeds API specifications
4. Service excellence
5. Over 100 years of experience
6. Highest level of integrity
